

Exhibition: 'TECHNOSCAPE The Architecture of Engineers'
Closing event: THINKERS & MAKERS OF A BETTER SPACE

3pm: Introduction

Pippo Ciorra and Maristella Casciato (on video)

3:15 pm – 3:50pm: BEAUTY AND RISK

Main focus of the conversation is the increasing risk coming from climate change and higher frequency of extreme environmental catastrophes.

Schools:

IUSS – Eucentre Pavia

Princeton University

Moderator:

Caterina Padoa Schioppa

3:50pm – 4:40 pm:

duet talk with Barry Bergdoll and Rory McGowan (Arup)

Introduction:

Jennifer Greitschus, Head of Exhibitions, Arup (tbc)

4:40pm – 5:30pm: Newness: materials and techniques

To comply with the contribution the communities are expecting from us, architecture and engineering need to expand their knowledge in the fields of new materials and new techniques for using them.

Schools:

Swiss Federal Institute of Technology Zürich (ETHZ) and Delft University of Technology (TUDelft)

Technische Universität Berlin

Universität Stuttgart-ICD Institute for Computational Design-ITKE Institute of Building Structures and Structural Design

Moderator:

Luca Di Lorenzo Latini, Andrea Di Nezio

5:30 pm – 6:20pm:

Duet talk with Tullia Iori and Guy Nordenson

Introduction:

Andrea Di Nezio

6:20pm – 7:10pm: Technology, Digital Culture, AI, Robotics

Tech and digital tools, in their many different manifestations are obviously changing the culture of engineering. In this frame we try to address how this change impacts on the culture of construction, rehabilitation, urban and architectural management.

Schools:

University of Applied Arts Vienna-Institute of Architecture

MIT - Massachusetts Institute of Technology-School of Architecture + Planning-MIT Media Lab

Moderator:

Luca Di Lorenzo Latini
